Adding and Subtracting Fractions
Task Card 5

$$9\frac{11}{26} - 2\frac{1}{13}$$

What is the numerator of your answer?

Adding and Subtracting Fractions
Task Card 6

$$8\frac{18}{46} - 4\frac{17}{23}$$

What is the whole number of your answer?

Adding and Subtracting Fractions
Task Card 7

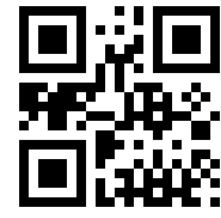

$$6\frac{5}{8} + 6\frac{1}{12}$$

What is the denominator of your answer?

Adding and Subtracting Fractions
Task Card 8

$$4\frac{3}{8} + 7\frac{19}{32}$$

What is the numerator of your answer?

Adding and Subtracting Fractions
Task Card 1

$$8\frac{4}{7} + 10\frac{8}{11}$$

What is the whole number of your answer?

Adding and Subtracting Fractions
Task Card 2

$$6\frac{7}{10} - 2\frac{4}{5}$$

What is the numerator of your answer?

Adding and Subtracting Fractions
Task Card 3

$$14\frac{1}{2} + 9\frac{6}{8}$$

What is the numerator of your answer?

Adding and Subtracting Fractions
Task Card 4

$$7\frac{12}{15} - 2\frac{6}{45}$$

What is the numerator of your answer?
